

## Preschool Family Handbook & Policy Manual

Welcome to Sunflower Preschool!

We are located in the beautiful Pemberton Heights Neighborhood at 2260 Philip Avenue, North Vancouver. The preschool is a part of Sunflower Early Learning Society (SELS), a Registered Non-Profit Society, supported by a volunteer Board of Directors made up of dedicated parents. The preschool is licensed by British Columbia's Community Care and Assisted Living Act. All teachers at Sunflower Preschool are certified and registered Early Childhood Educators or Assistants.

At Sunflower, we understand how important it is to find just the right fit for your child and your family. We strive to create a nurturing environment that is safe and fun while maintaining transparency and openness in all communication.

To ensure full understanding of our Society and programming, please take your time in reading through our Parent Handbook and Policy Manual. If you have any questions, please don't hesitate to get in touch.

We look forward to beginning this journey with you and your family,

Sarah Dempsey

Executive Director  
Sunflower Early Learning Society

(604) 985-9622

## Preschool Family Handbook & Policy Manual

### Preschool Program Overview

At Sunflower Preschool, we have 5 different options for programming. You can select the class which best suits your family's schedule. As we are a preschool and creating a predictable routine is an important part of what we do, these class times are set, and it is not possible to mix and match days, or to change your class hours. Under our license we may only provide care for children for up to 4 hours per day, therefore we cannot register families for both a morning and afternoon class.

To be eligible for entry into a 3's class, your child must be 3 years old on or before December 31 of the year they are joining us. If your child is joining mid-term, they are required to be at least 33 months old.

To be eligible for entry into a 4's class, your child must be 4 years old on or before December 31 of the year they are joining us. If your child is joining mid-term, they are required to be at least 45 months old.

We require that children are potty trained before attending; under a preschool license, we do not have the facilities nor staffing ratio required to potty train or change diapers. We are aware that accidents happen, so ask that we keep a change of clothing at school. However, if your child has accidents every day they are in school, we do not consider them to be *potty trained*. For more information see <https://www.healthlinkbc.ca/health-topics/hw170452>.

*Our classes are all named after different types of Sunflower!*

Class Name	Age Group	Days	Times	Monthly Fees
Bashful	3 years	Mon, Wed, Fri	9:00 – 11:30am	\$340
Chianti	3 years	Tues, Thurs	9:00 – 11:30am	\$220
Big Smile	4 years	Mon, Tu, Wed, Th	12:30 – 3:30pm	\$450
Sundance	4 years	Mon, Wed, Fri	9:00 – 12:30pm	\$410
Sungold	4 years	Tues, Thurs	9:00 – 12:30pm	\$250

**Please refer to page 5 of this Parent Handbook for further information regarding Registration and Fees.**

## Preschool Family Handbook & Policy Manual

### Vision, Mission, Values

#### Vision

Children reach their full potential within a supported, accessible, and inclusive Reggio Emilia inspired environment.

#### Mission

To foster a community of connection, reflection, growth and well-being for all society members and staff.

#### Values

Community relationships, equal opportunities, and meaningful connections; trust, respect, empathy, and inclusion.

At Sunflower Preschool, we also focus on:

#### Learning in Relationship

Along with being inspired by the Reggio Emilia Philosophy, Sunflower Preschool aims to cultivate a wide breadth of thought and ideas as a foundation for building meaningful connections and learning opportunities. These intentional connections and learning opportunities promote social responsibility, curiosity, and resilience.

#### Emergent Curriculum

We aim to evoke and make visible multifaceted perspectives in our school through inquiry, reflection, ongoing projects, curiosity, and conversation.

#### Diplomacy

We aim to consistently provide opportunities for every parent, child, and teacher to have a voice that is heard, valued, and represented in our school.

#### Organizational Integrity

We commit to transparent and responsible organizational practices that uphold our vision, mission, and values. We live out our philosophy daily, and respect all families, staff, and children.

### Philosophy

#### Emergent Curriculum

Curriculum is everything that happens during our time together at Sunflower. Our Educators are trained in a reflective teaching practice, and we encourage all educators to engage in this reflective practice with each other, our families, and children always. This includes planning the preschool environment for

## Preschool Family Handbook & Policy Manual

exploration and observing the children as they play and interact with each other and the environment. From these observations, educators create customized invitations for children to expand their thinking and understanding and to encounter new challenges or perspectives.

Our collaborative investigations may last an hour, a day, a week or may progress into an ongoing project that spans a longer period. The children's personal experiences and individual inquiries often fuel the learning process in an emergent curriculum, while educators offer provocations and invitations to extend the children's thinking, bringing people together as a collaborative whole as much as possible. An organic learning process such as this really comes in to its' own when children are afforded **the opportunity to play for extended periods of time in a carefully curated environment.**

### Reggio Emilia

We are inspired by the Reggio Emilia approach, an especially important part of this philosophy is that we view children as **competent, capable, and powerful individuals**. The idea of community is also a focus, and we are always looking for new ways to collaborate with, and represent, our school community. We believe that knowledge is constructed through shared experiences and discussions, and teachers meet every Friday afternoon to reflect on their practice and our environment together. Parents are a vital component in the Reggio Emilia philosophy; they are viewed as partners, collaborators, and advocates for their children. Educators respect parents as each child's first teacher and value parent's involvement.

### Environment

A welcoming and purposeful environment is another key element of the Reggio Emilia philosophy. We aim to create an environment that feels cared for, considered, warm, and accessible. Our environment is flexible and represents our current community. Our environment should promote and make possible learning and inquiry through each child's different learning language.

### Social & Emotional Development

We encourage our educators to model, and nurture in children a sense of self-awareness, empathy, resilience, and positive social identities. We promote social and emotional problem solving by supporting children in understanding their feelings, and then encouraging them to articulate their findings. We observe, reflect, and ask open ended questions, allowing children the space to come up with their own ways to 'make amends' where this is appropriate, or to do something differently next time. Relating back to the idea of diplomacy being active within our school; in offering children the opportunity to consider the perspective of others, they can begin to develop skills to advocate for themselves while also being empathetic. We aim to build upon children's innate, budding capacities for empathy and fairness, as well as their cognitive skills for thinking critically about what is happening around them. We work as a community to build a sense of safety, the sense that everyone can and will be treated fairly.

## Preschool Family Handbook & Policy Manual

### Image of the Child

We believe that each child is competent and capable of learning the skills necessary to take responsibility for their social interactions and initiative for their own learning. We offer children the time and space to explore and experiment within their own level of knowledge, and to test out their hypothesis in the different ways that work for them. We acknowledge the fact that children's histories, abilities, and interests differ and for this reason we constantly reflect on our practice, environment, and interactions.

### Image of the Family

We see families as experts in their own child's growth and development, and as a crucial partner in their child's education. We commit to providing families with a high-quality preschool led by experienced and passionate educators, and to providing each child with an experience that is joyful, inspiring, and safe. Our hope is that each family comes to feel connected to their child's school experience in their own way, for this reason we ask families to share their perspectives and invite open communication with their class team regularly. We welcome family participation and encourage spending time in the classroom and volunteering when possible.

### Image of the Educator

We see Educators not as 'teachers' in a traditional sense, but as 'learning partners', collaborating with the children to make meaning and to understand our world. Documentation is an ongoing process in our school, which serves not only as part of our reflective practice, but also as a way of making learning visible and showing our dedication to the importance of our everyday investigations and interactions. By documenting, we are showing the children that we place value on their experience. Through making learning visible, and consistently reflecting on what is happening in our school, we not only create an open dialogue between educators, families and children, but we also open up the opportunity to really focus in depth on the different types of learning that are happening, and the different hypothesis that are being tested out.

Our educators are all licensed by the E.C.E. Registry in BC and engage in professional development regularly. Just as is important with the children, we aim to provide time to collaborate, reflect, document and care for our environment. We have weekly meetings where we reflect on practice together. Sunflower Preschool closes on all North Vancouver School District and Capilano Elementary school Professional Development days. On these days, we attend training, run workshops, have meetings, and refresh our environment, all with the aim of offering the best possible care and education for the children.

### Authentic Childhood

We aim to provide children with authentic experiences that enrich their childhood through a sense of freedom, and *awe & wonder*. When we consider that we only live through childhood once, we are inspired to make our children's time at Sunflower as memorable as possible. By providing a safe place to

## Preschool Family Handbook & Policy Manual

take risks and be independent, to explore loose-parts and other open-ended resources, to connect with nature and play outdoors, we hope to allow children to *truly be children*.

### Inclusion

We believe that all children have a right to quality care and education and provide the same opportunities for every child that attends our program. Inclusion really means *all* children, not just those who are *easy and/ less expensive* to include. Where children require extra support of some kind to ensure their comfort and safety whilst at preschool, we take part in planning for and providing them the support that they need to attend.

*Typical* children also benefit from inclusive experiences. Social inclusion matters. In inclusive settings, all children learn about respect for difference, new forms of communication, empathy, friendship, and solidarity across difference. Inclusion begun at an early age leads to better inclusion for all citizens later in life.

## Preschool Family Handbook & Policy Manual

### Registration, Fees & Withdrawal Policy

#### Membership Fee

A \$50 membership fee will be charged upon registration of your child at SELS and then annually thereafter for as long as you remain a member in any SELS program.

#### Program Fees

Monthly fees are due on the first of each month. Failure to pay fees can result in termination of service. A current schedule of our monthly preschool fees is provided on page 2 of this Handbook. Fees are created with the whole school year in mind, including those months where we are closed for statutory holidays and professional development days.

We do not offer a reimbursement of any fees for closures that fall on scheduled days, such as statutory holidays, sick days, vacations or other leaves, including on days throughout the start of term and gradual entry period in September (or whenever you begin preschool if starting mid-term) where children do not attend for their full class time.

#### Payment Types

We prefer that fees are paid by preauthorized debit and include a PAD Agreement form in our registration package. For all other payments, we accept cheques made payable to 'Sunflower Early Learning Society', cash, or e-transfer to [admin@sunflowerschool.ca](mailto:admin@sunflowerschool.ca). We do not accept card payments currently.

#### Tax Receipts

Receipts for income tax purposes will be provided via email on or before February 28<sup>th</sup> each year, for the previous year's fees. If you have not received your tax receipt by the above date, please get in touch with [sarah@sunflowerschool.ca](mailto:sarah@sunflowerschool.ca).

#### Unscheduled Closures

If Sunflower Preschool is not able to operate due to circumstances out of our control, an attempt will be made to operate a full or modified program at an alternate location. There will be no refunds for unscheduled closures that last for two consecutive days or less. Refunds for unscheduled closures that continue for three consecutive days or longer will be issued on the parent portion of the fee based on the actual daily rate for the type registration.

#### Declined/Insufficient Funds/NSF Fees

A fee of \$45 will be applied if funds are unavailable at the time of pre-authorized debit withdrawal. Sunflower Preschool will not be responsible for any costs charged by your bank/financial institution.

## Preschool Family Handbook & Policy Manual

### Government Subsidy

The B.C government's Child Care Subsidy Program is available to families and is based on certain provincial eligibility requirements. Families who receive the provincial childcare subsidy are responsible for paying the difference in costs between the subsidy and Sunflower Preschool fees each month.

Parents are responsible for keeping their subsidy current, and for the full preschool fee if their subsidy expires. For more information, contact 1-888-338-6622 or [visit the website](#).

### Withdrawal or Program Changes

We staff our programs with numbers of children in mind, therefore a minimum of 30 days' notice is required for withdrawal from your preschool program, or any program change. Notice must be received before the 1<sup>st</sup> of the month prior to the month you wish to withdraw your child. An additional month's fee will be charged if the required notice is not given.

### Withdrawal of Services

In rare situations, it may be necessary for Sunflower Preschool to withdraw services; however, we will make every attempt to work with the family to resolve the issue(s) to the mutual satisfaction of all parties, provided that the arrangement does not compromise the mission and values of the society, put the staff, the child or other participants at risk, or diminish the value of the Sunflower learning experience for other participants.

Situations are dealt with on an individual basis, considering the specific needs of the child/children and circumstances of the family.

The following situations (not limited to) may be considered cause for terminating care:

- Presentation of behaviors in a child that are physically or mentally harmful to other children in our care, or staff, and/ behaviors as above that are present and not funded for 1-1 support by the family or an outside agency.
- Unresolved custody issues (e.g. if a family's custody issue results in continuous conflicts at the school, and places the staff, the child, or other children at risk).
- Inappropriate conduct on behalf of a family member, including harassment, threatening behavior, violent acts toward staff, children or to other families involved in the program.
- Late pick-up issues.
- Non-payment or consistent late payment of fees.
- Philosophical differences (when the needs and opinions of a family do not fit with the values, policies, and procedures of SELS).
- Bringing sick children into the school, thereby compromising the health and wellness of the other children, families, and staff.

## Preschool Family Handbook & Policy Manual

### Health Policy & Procedure

#### Sick Child Policy

It is important to prevent the spread of any infectious disease or illness to other children and staff. Please keep your child at home if you feel that your child is too unwell to participate in the program. Children who staff judge to be unwell or have a source of infection, cannot be allowed to participate in the program. If your child becomes ill during preschool and you cannot be reached, staff will phone emergency contacts to pick-up your child immediately. Keeping them safe and comfortable in the meantime.

A child is considered sick and will be sent home if they exhibit any of the following symptoms:

- a) Fever and/ temperature over 38°C – your child may return after 24 hours of being fever-free
- b) Diarrhea – your child may return after 24 hours after the last bout of diarrhea
- c) Vomiting - your child may return after 24 hours after the last bout of vomiting
- d) Hacking or a continuous cough
- e) Yellow or green mucus discharge from eyes or nose
- f) Any unidentified rash that is unusual for that child
- g) Sore throat or loss of voice
- h) Parasitic infection including lice
- i) Any serious communicable disease (measles, chickenpox, pinkeye, etc.)

Your child must be symptom-free for a period of at least 24 hours prior to returning to school. It is advisable to seek medical attention to ensure your child is fit to return to preschool.

Please do not bring your child to school with any illness which means that they are unable to participate in our regular daily activities, even if they have none of the above symptoms. If you need to give your child “over-the-counter” medication, that is an indication that they are not well enough to participate and should be kept home.

It is our responsibility to report any communicable disease to Vancouver Coastal Health.

Please see our separate policy in relation to COVID-19 in a separate document, and on our website [www.sunflowerschool.ca](http://www.sunflowerschool.ca) for the most up to date information.

#### Immunization

A copy of your child’s immunization records is mandatory at the time of registration as required by the Ministry of Health and Licensing Standards. If your child is NOT immunized as per these standards, then we require a note from the conscientious objector (parent/guardian) stating that their child is not

## Preschool Family Handbook & Policy Manual

immunized and in the event of an outbreak, their child will be asked to remain at home until such time as the risk to that child is significantly mitigated or eliminated.

### Outbreaks

We will post information about any outbreak of illness on the door to our school and make every effort to contact families by email or phone directly to communicate this. During an outbreak, it may be necessary to close the school, in which case we will follow instructions and recommendations by Vancouver Coastal Health Authorities. Fees will not be refunded in the event of an outbreak.

### Prevention

Sunflower Preschool acknowledges the importance of preventative health practice through the following:

- Stop the spread of germs by washing hands upon entry, before eating, after eating, after toileting and at the staff's discretion
- Teach children to sneeze/cough into their arm instead of their hands
- Stay strong and healthy by encouraging healthy eating, plenty of exercise and outdoor play and lots of sleep
- Staff will keep the preschool clean and toys sanitized using a bleach and water solution
- Children and adults to change from outdoor shoes to indoor shoes upon entry into the classroom.

Please see our separate policy in relation to COVID-19 in a separate document, and on our website [www.sunflowerschool.ca](http://www.sunflowerschool.ca) for the most up to date information.

### Medication

Sunflower staff can administer prescription medication in its original container, with the pharmacist's label stating the child's name, medication prescribed, dosage, duration, and expiry date. Over-the-counter medication will only be administered when accompanied by a written letter from your child's doctor stating all the same information outline above, along with the reason for administering.

In both cases, parents must complete a *Consent to Administer Medication* form to authorize the administration of the medication provided. We encourage all families to administer their child's medication before coming to preschool, when possible.

### Allergies

The appropriate emergency and allergy forms must be completed by all parents of children that have been diagnosed with an allergy. These will be provided at registration, or later if an allergy is identified once the child is already registered at the school.

## **Preschool Family Handbook & Policy Manual**

Parents/Guardians have the responsibility to provide a detailed individual emergency care plan for their child, and to train all Sunflower staff on their child's emergency plan prior to the first day of care. It is always mandatory for a child with an anaphylactic allergy to carry an EpiPen. It is the Parent/Guardian's responsibility to inform Sunflower staff of a child's allergy at the time of registration and to provide regular updates of any changes to an allergy or emergency care plan. At Sunflower, we take allergies very seriously and in the case a child is severely allergic, we will make all efforts to ensure the school is free of the allergen/s in question.

### *Medical Care Plans*

Parents of children that have been diagnosed with a medical condition (seizures, diabetes, etc.) that may result in an emergency, have the responsibility to provide a detailed emergency care plan for the their child and to train all Sunflower staff on their child's emergency plan prior to the first day of care.

## Preschool Family Handbook & Policy Manual

### Active, Messy, Outdoor and Risky Play

At Sunflower we believe that it is important that children have access to the outdoors in all weathers, and that children can engage in play that is considered messy: paint, mud, water, dough, clay, etc. Please ensure your child is appropriately dressed for the weather and has a spare set of clothes to change into at the school, and/ in their bag. Your child's clothing may get wet or dirty and we encourage parents to dress their children with this in mind. Sunflower Preschool cannot bear any responsibility for clothing and accessories marked or stained during the course of our programming, and we really appreciate it when this is not a concern for the teachers and the children, so everyone can focus on enjoying their time at school with a certain sense of freedom to explore, experiment and *make a mess* as part of the learning process.

#### Active Play

The *British Columbia Director of Licensing Standard of Practice - Active Play* recommends active play and physical movement be incorporated in the childcare environment throughout the daily routines and activities. Our licensed preschool must ensure the minimum outdoor active play requirements are met; programs 2-3 hours in length must ensure a minimum of 30 minutes of outdoor active play, while programs 3-4 hours in length must ensure a minimum of 40 minutes. Indoor active play is acceptable when weather is inclement. We have a private garden and large gym to accommodate this requirement, and the children's need for physical activity.

#### Messy Play

We offer **time and space** for exploration and discovery. We want children to freely engage with a variety of materials and experiences, without anxiety. Sometimes our explorations result in wet, dirty, colorful clothing. Please ensure the clothing your child wears to preschool will allow them to immerse themselves in the environment without worrying about the state of their clothing or the repercussions of leaving Sunflower in clothing that has become messy during their time with us. This type of freedom to explore is a vital part of a child's development, and so much learning goes on when they are able to immerse themselves in the sights, sounds, smells and textures of different materials, and the world around them.

#### Process over Product

At Sunflower, and echoed throughout the Reggio Emilia philosophy, **we value process over product in all areas of our practice**. This means, there won't always be physical examples of art or mark making to take home at the end of the day, there will not be pre-cut turkey shapes with sticking on sent home for Thanksgiving. There won't be a generic decoration sent home for the Winter Holidays. However, there

## Preschool Family Handbook & Policy Manual

will be real, open ended creative and exploratory experiences, documented through photographs, quotes, videos and sound clips. There will be the opportunity for children to create and represent their experiences in whatever ways work for them, thus removing the pressure to conform to a pre-planned, teacher led outcome.

### Outdoor Play

The outdoors provides children with an open and free, active learning environment with the opportunity to explore and make meaning of the natural world. At Sunflower Preschool we spend time outdoors each day. Parents are responsible for ensuring their child is dressed appropriately for the weather - rain gear on wet days; warm jackets, mittens, boots, toques etc. on cold days; sunscreen, hats and appropriate footwear (running shoes, closed toe sandals etc.) on warm days.

### Risky Play

Risky play can be defined as a thrilling and exciting activity that involves a risk of physical injury, and play that provides opportunities for challenge, testing limits, exploring boundaries, and learning about injury risk. Risky play helps to develop important life skills, such as:

- Balance and coordination
- Building resilience and persistence
- Awareness of the capabilities & limits of our bodies
- The ability to assess and make judgement about risk
- Handling tools safely and with purpose
- Understanding consequence to action
- Confidence and independence
- Resourcefulness
- Creativity and inventiveness
- Curiosity and wonder
- Problem solving and resilience

Each child is unique and so the level of risk and challenge they seek will vary, yet most children will actively seek risk and challenge in play as they explore the world around them and their own physical abilities.

## Preschool Family Handbook & Policy Manual

Life is full of risk. By providing children with opportunities to participate in risky and challenging play in a safe learning environment, we provide opportunity for the development of important life skill learnings such as making choices, problem solving, measured risk taking, and navigating their way socially and emotionally in group situations. These skills will be important right through life.

### Walking Field Trips

Our community affords us the opportunity to walk to a variety of destinations. While we aspire to provide families with as much notice as possible there may be circumstances where our local walks are impromptu. There is an *Impromptu Walking Field Trip Consent* form in our registration package, and we ask that children wear appropriate footwear for walking when they attend preschool. Flip-flops and open toe sandals can make it difficult for children to enjoy their outdoor experience as they may injure themselves or find it challenging to walk for extended periods of time over varied terrain.

### **Nutrition**

Please inform staff immediately of any food allergies or dietary restrictions.

### Healthy Snacks for Preschoolers

Please provide your child with a nutritious snack and lunch sufficient in quality and quantity, depending on your program. We encourage families to pack healthy foods free of candies, chocolates, fruit juices and sodas. A water bottle should also be provided. Recommended nutrient requirements for children are outlined in the Canada Food Guide. Vancouver Coastal Health published a document titled, "Healthy Snacks for Preschoolers" which provides guidelines and examples of appropriate snacks/meals. This can be downloaded at: <https://vch.eduhealth.ca/PDFs/GK/GK.260.H43.pdf>.

### Birthdays and Special Celebrations

On Birthdays we celebrate with the child's class at snack time with our wooden birthday cake, and a song. Children work together to make a birthday hat, card, or banner, which your child has the option to wear/take home if they wish. We ask that you do not bring food items to share with the class, however we welcome any other small, non-food tokens or games for the children to take home/play at school if you want to do so.

### Allergies

Sunflower Preschool is a nut-aware facility, to protect children that may have a nut allergy. On occasion, serious food allergies are brought to our attention and if this is the case, then parents will be asked to refrain from sending that particular food to school. If there are any food allergies in your class, you will be made aware at the start of term, and/ at the time we receive the information.

## Preschool Family Handbook & Policy Manual

### **Arrival/Departure Routines**

The safety and well-being of all children participating in Sunflower Preschool programs is of utmost importance. We expect all parents to drop off and pick up children from their child's classroom teacher daily.

Children may not be dropped off before the program opens and must be picked up promptly at the end of the program. We will often allow five minutes of flexibility either side of pick up and drop off times, but this should be discussed and agreed with your class teacher first.

#### Dismissal Routine

As a general rule, at the end of class time parents/caregivers are asked to wait in the Sunflower lobby if picking up from inside and are asked to close the gate behind them if entering the garden for collection. A teacher will stand at the door or gate and call one or two children at a time once they have verified an adult is present and ready to receive that child. Once those children are in the care of their adult, the teacher will close the door momentarily and proceed to call one or two more children and so on. This procedure ensures the teachers are able to account for the safety and well-being of each child.

Drop off and pick up routines may vary throughout the year, and your class teacher will inform you of any changes.

#### When Someone Else Picks Up Your Child

Parents are required to notify preschool staff if someone other than those listed on the authorized pick-up list will be picking up your child. If this person is unknown to the staff, they will be required to show photo identification. The alternate pick-up person must be 16 years or older. We cannot release a child to an unknown person (someone not listed on the authorized pick-up list) without prior informed consent.

#### Late Pick Up

We expect that all children are picked up on time, respecting our staff's schedules and commitments. Frequent late pick-up can result in withdrawal of services.

### **Garden Use**

Sunflower Preschool has a beautiful outdoor space that we refer to as our garden. The educators at Sunflower have invested a significant amount of time and energy into the maintenance and upkeep of our garden facility, including mud kitchens, raised stage areas and slacklines for the children to enjoy. At the end of school, the garden is locked. We ask that parents please respect the locks on our gates and do not let their children enter the garden outside of preschool hours (evenings, weekends, and after 3:30pm). Any person that enters the garden outside of program hours is trespassing and assumes all responsibility and liability for his/her actions. Violation of this policy may result in withdrawal of services.

## Preschool Family Handbook & Policy Manual

### Parent Communication

Parent-teacher communication is the primary co-held responsibility for families and staff. Through verbal and written communication of information, thoughts, ideas and by collaborating on activities and events parents and teachers strengthen their relationship and understanding. Sunflower Preschool supports communication in the following ways:

- Daily Verbal Exchange - parents and teachers exchange essential information at drop off and pick up times. Long conversations are scheduled for when teachers are not directly supervising children.
- Written Communication - Bulletin/communication boards display children's work, newsletters, calendars, and other important information. We also send these out by email. Please be sure to take time to read the notices on display when it's possible and safe to do so.
- Electronic Communication - Please ensure [sarah@sunflowerschool.ca](mailto:sarah@sunflowerschool.ca) and [teachers@sunflowerschool.ca](mailto:teachers@sunflowerschool.ca) are on your safe senders list so that information sent electronically reaches your inbox. Email is used to share a lot of information, such as newsletters, upcoming events, and school closures. Plus, documentation pieces and weekly reports.

### Electronic Communication, Photography & Media

Staff at Sunflower must obtain written permission from parents to take pictures of their children for record-keeping, classroom displays or publicity purposes. We understand that some families may not consent to this and have the right to opt out. Teachers like to take photos throughout the day to make learning in our classrooms visible to families and to provide children with a tangible way to reflect. These photos may be used by the educators for documentation, displayed on the walls at preschool and sent home to families in our weekly emails. To maintain confidentiality, all emails are sent in blind copy/Bcc format, and only to families that are currently members of Sunflower Preschool.

### Parent Visits and Participation

We welcome and encourage parent involvement in our program. We do recommend parents wait until their children are settled at school before volunteering or visiting the class. Please let your child's teacher know if you would like to volunteer or visit in the classroom. Parent involvement may include sharing a tradition or a holiday important to your family, bringing in a talent for crafts, music, cooking, or other activity. We include a *Family Volunteering Form* in our registration package, and email out specific opportunities to those that sign up as they arise.

## Preschool Family Handbook & Policy Manual

### **School Closures**

#### Annual Calendar

Sunflower Preschool follows the North Vancouver School District calendar and specifically the Capilano Elementary School Calendar (for which we provide out of school care programs). As part of our programming, Sunflower observes all professional development days throughout the year during which time the preschool will be closed for staff training and environmental improvements. We publish our calendar in advance of the upcoming school year, providing families with as much notice as possible to organize their schedules.

The whole school is closed on all BC Statutory holidays, and regular preschool classes do not run in Winter, Spring or Summer breaks. In 2020 we piloted a Preschool Summer camp program, and hope to do this again in the future. Please check our website for current information on Summer Camps.

#### Extreme Weather

In the event of inclement or extreme weather Sunflower Preschool may close. If the North Vancouver School District closes schools for the day, Sunflower Preschool will also close. North Vancouver School district closures will be announced generally through the following media outlets:

CBC 690 AM radio  
CKNW 980 AM radio  
NEWS 1130 AM radio  
CFOX 99.3 FM radio  
AM 730 radio  
City TV  
Global TV  
Fairchild TV

Sunflower will inform families of school closures as early as possible via email.

Parents are encouraged to establish an emergency plan for their children in the event that schools are closed, start late, or dismiss early. Please prepare for inclement weather by dressing children appropriately.

#### Power Outage

If there is a power outage during the day, Sunflower Preschool will contact BC Hydro to find out the estimated time of restoration. If it is estimated restoration will take longer than 45 minutes, then staff members will call parents to pick-up their children. If parents cannot be reached, then the emergency/alternate contacts noted on file will be contacted. This is a requirement under licensing regulations, as power outages pose a health and safety risk. If power is restored but the staff have

## Preschool Family Handbook & Policy Manual

already started closing procedures, staff will continue closing the facility. Parents will be able to return with their children the following day if the power continues to be in working order.

In the event of a closure every effort will be made to contact you before the program is scheduled to open.

### Guiding Children's Behavior

Sunflower Preschool is committed to helping children grow and learn in a safe, caring, and nurturing environment. As part of this it is important that we establish clear boundaries with the children. Sunflower staff follow, *Guiding Children's Behavior* a publication produced by the provincial government in collaboration with the Early Childhood Educators of B.C. The document can be downloaded at: [https://www2.gov.bc.ca/assets/gov/health/about-bc-s-health-care-system/child-day-care/guiding\\_childrens\\_behaviour\\_april\\_2017.pdf](https://www2.gov.bc.ca/assets/gov/health/about-bc-s-health-care-system/child-day-care/guiding_childrens_behaviour_april_2017.pdf)

Our goal is to support children in becoming able to self-regulate and understand their emotions and behaviors. By adopting a strengths-based approach, Sunflower educators can enter a situation and identify the strengths of a child first and then support them to build on those strengths to overcome challenges. To assist children in establishing these skills we:

- Keep boundaries and expectations simple and easy to understand
- Collaborate with children to create boundaries and come up with their own expectations of themselves and others
- Help children to develop the language to articulate their thoughts, feelings, and ideas
- Be consistent, clear, and concise
- Always think about, and talk about the *why*, behind our boundaries and expectations
- Say what we mean and focus on what children could do, rather than things they *shouldn't do*
- Give clear, simple choices
- Show respect by looking children in the eyes, and talk with them, rather than 'at' them
- Encourage the children by telling them what they are doing well, and reinforcing the positive
- Model to children how they could resolve conflicts and solve problems
- Set a good example through actions and words
- See each child as an individual, with a different family, history, and experience

### Abuse/Suspicion of Abuse

We are required by law, under the *Child, Family, and Community Service Act*, to report any suspected cases or disclosures of child abuse or neglect to the appropriate authorities for investigation. Our responsibility is to report suspicions or disclosures, not to determine if abuse has occurred.

Investigations are the responsibility of the Ministry for Children and Family Development (MCFD) and/or the police, and they are responsible for contacting the parent/guardian.

## **Preschool Family Handbook & Policy Manual**

### **Emergencies**

In the event of an emergency or natural disaster, we will attempt to contact families as soon as possible. If only long distance telephone lines are available (i.e. local lines down or engaged), we attempt to contact and leave a message with your out-of-town emergency contact. If a child requires medical attention, then we will make every effort to notify parents/guardians prior to taking the child to the nearest hospital/clinic.
